

## **Emergency Medical Technician (EMT)**

### **Primary Responsibilities:**

- Provide care to ill/injured guests and employees within scope of practice using company medical protocols, policies, and standing orders.
- Share essential information regarding guest and employee incidents through documentation and verbal communication.
- Respond to park emergencies both in First Aid station and in the park.
- Document treatment/care provided on appropriate forms.
- Maintain a safe work environment and identify safety hazards.
- Initiate accident investigations for work-related and ride-related incidents.
- Assist with opening/closing of First Aid Station.
- Maintain a professional appearance that meets grooming and safety standards.
- Perform miscellaneous functions as required, including but not limited to, general maintenance, organization, and appearance of the First Aid station, restocking of supplies, cleaning treatment areas, and contacting proper support units as needed.

### **Requirements & Competencies:**

- Current Pennsylvania EMT Certification required.
- Two years actively affiliated with a pre-hospital 911 ambulance service and/or hospital ER tech experience and remains active after hire.
- Candidates will need to provide a reference list of current pre-hospital emergency service providers or EMT/ER employers to verify active status.
- Current American Heart Association/ American Red Cross CPR and AED certification.
- Ability to act as a first responder to medical emergencies in the park and be comfortable leading the scene.
- Strong written/verbal communication skills.
- Ability to handle conflict situations professionally and with courtesy.
- Available to work weekends during non-peak season.
- Available to work minimum 2-3 shifts per week including morning/evening shifts, weekends, and holidays during peak season.
- Position requires the ability to carry out physical activities including fast walking/running in hot, humid weather, stooping, bending, lifting, and climbing. This position requires physical durability and may require the ability to climb high staircases on attractions. These activities must be done while carrying an equipment backpack.
- Theme park experience preferred.
